# Avario 85 Inclined Material Hoist

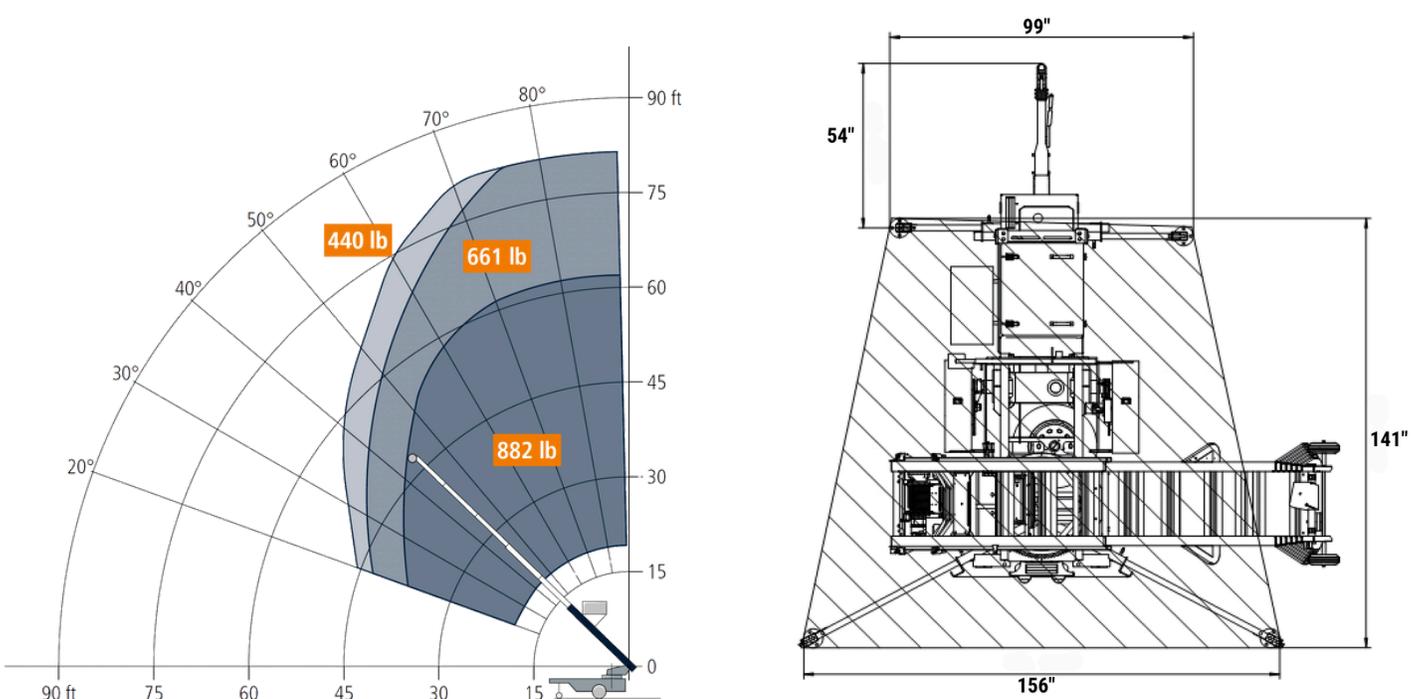

↑ 85 ft Max Mast Extension    🛒 880 lb Max Load Capacity    ⌚ 165 ft/min Hoisting Speed

## Technical Data:

- Trailer-mounted and towable by most vehicle with a low gross vehicle weight of just 4,189 lbs
- Adjustable axles for easy access through gates and doorways
- Retractable towbar reduces overall length for maneuvering in tight spaces
- Compact chassis with a small footprint, making it ideal for difficult to access job sites
- Quick and easy setup by a single operator
- User-friendly controls for simple operation
- Low-maintenance design for effortless upkeep
- Powered by a Honda GX390 gas engine
- Optional electric motor enables both indoor and outdoor operation
- Built to last with high-quality materials and renowned German engineering
- Maneuvering drive allows for easy positioning on the job site
- Available as a straight rail with a maxi horizontal platform or with a knee joint for easy access to pitched roofs

## Diagrams:

# Maxi Horizontal Platform

## Technical Data:

- The largest horizontal platform available for Böcker inclined hoists, designed specifically for the straight rail Avario and Arriva
- Folding side panels create a wide, flat loading area in seconds for transporting long or bulky materials
- Rotates and extends to keep crews away from the edge of the roof during unloading
- Self-leveling keeps materials stable and horizontal while traveling up the rail
- Spacious enough to fit the equivalent of 10 standard 5-gallon buckets
- Ideal for hoisting materials for a variety of industries, such as roofing, masonry, carpentry, etc.
- Features a simple hand crank for platform leveling
- Dimensions:
  - Open: 80" Wide x 3" Tall x 75" Deep
  - Closed: 50" Wide x 27" Tall x 35" Deep
